

Change Request Form

GENERAL INFORMATION			
CR#	APP-0001		
Request Title	ReportNow v1.0		
Requestor Name	Ang Wei Ming		
Current Version	v0.0 (prototype)		
New Version	v1.0		
Contact Information	wang048@e.ntu.edu.sg		
Description of Request	Development and integration of primary application components to enable essential user workflows, including authentication, issue reporting, and review features.		
Date Submitted	16/10/2025		
Date Required	16/10/2025		
Change Priority	Low	Medium	High
Reason(s) for Change	To deliver the minimum viable product (MVP) of ReportNow with all core user and system functions.		
Initial Impact Analysis	Moderate development effort; foundational to all subsequent updates. Impacts both front-end and back-end modules but introduces no major architectural risks.		
Components Impacted	Front-end UI modules, authentication flow, API endpoints for user sessions, issue creation, and review submissions.		
Estimated Time Required	2–3 weeks		
Estimated Cost Required	\$0 - Recommended		
Change Implementation	Led by Wei Ming with contributions from Dylan, Seo Hyeon, and Kean Yee.		
Quality Assurance/Testing	Unit and integration testing by Kean Yee. Overall validation by Yong Huat.		
Comments and Recommendations	-
